

Account handoff · Wix Website & Store Management

Last checked: October 2026 · Managed by: _____ (organisation fills this in) · Prepared by Jade Zhao

This is a simple handoff sheet. You do not need technical experience to use it. Follow the steps in order.

What this is

The organisation's website and Wix dashboard (and store / inbox if those apps are on).

Who owns the login?

- Primary site owner: _____
- Backup owner / co-owner: _____
- Wix account email (owner): _____
- Where recovery info lives: password manager, held by _____

Assign staff custom roles (for example Store Manager or Website Manager) rather than sharing the primary owner login. Admin Co-Owner cannot delete or transfer the site. Transferring ownership does not move your payment method. Never put the password on this sheet.

ELI5 steps

- 1 Go to wix.com and sign in with your own account. Pick the right site if you manage more than one.
- 2 For messages: open Inbox in the left menu, read the thread, write a short reply, then Send.
- 3 For store reviews: open Stores, then Product Reviews (or your reviews app), reply, then publish.
- 4 To invite help: Settings → Roles & Permissions → Invite Collaborators. Give only the role they need.
- 5 When someone leaves: Owner goes to Roles & Permissions, opens More Actions on that person, then Remove.
- 6 If you forgot the login, use Wix account recovery. Do not borrow someone else's password.

Warning / troubleshooting

- The site owner should be the organisation, not a former employee or outside designer.
- Cannot edit something? Check your role under Settings → Roles & Permissions.
- US help links. Your region may show different wording.

Do not

- Do not share the primary owner login with temporary contractors.
- Do not publish major layout edits without Preview (and a mobile check).
- Do not offer payment to delete a negative product review.
- Never put passwords or MFA codes on this sheet.
