

Account handoff · WordPress (WordPress.com or self-hosted)

Last checked: October 2026 · Managed by: _____ (organisation fills this in) · Prepared by Jade Zhao

This is a simple handoff sheet. You do not need technical experience to use it. Follow the steps in order.

What this is

The organisation website's content-management system.

Who owns the login?

- Is this WordPress.com or self-hosted? ■ WordPress.com ■ Self-hosted / hosting company
- Site owner / admin: _____
- Hosting company (if self-hosted): _____
- Domain owner: _____

Write which flavour the org uses on this sheet. Do not give every volunteer Administrator. When you Add New User, leave the checkbox that emails them a password unchecked; they should set their own password. Never put the password on this sheet.

ELI5 steps

- 1 Confirm whether the site is WordPress.com or self-hosted (/wp-admin).
- 2 Sign in with your own account. Open Users to see who has access.
- 3 Add people with the lowest role that lets them do the job (Author or Editor often beats Administrator).
- 4 On Add New User, leave the send-password-by-email checkbox unchecked. They reset or set their own password.
- 5 When someone leaves, remove or demote their user account.
- 6 If you forgot the password, use the official reset for WordPress.com or your host / wp-login reset.

Official help (US links; region may differ)

WordPress.com invite people and user roles: <https://wordpress.com/support/invite-people/user-roles/>

WordPress.org roles and capabilities: <https://wordpress.org/documentation/article/roles-and-capabilities/>

WordPress.org Users Add New screen: <https://wordpress.org/documentation/article/users-add-new-screen/>

Warning / troubleshooting

- Administrator can delete the site and other users. Use it sparingly.
- US / .org docs. Hosting panels differ by company.

Do not

- Do not share one Administrator password across the team.
- Do not email passwords in plain text. Leave the Add New password-email checkbox unchecked.
- Never put passwords on this sheet.
