

# Toast handoff

*matchaxmoxie*

This page is for the person who will use the Toast register after someone else set it up.

## What handoff means

Handoff means you can sign in, ring a sale, and take a card without the person who set up the register standing there.

## Steps

1. On the Toast terminal, sign in with your staff PIN or card. The business owner signs in to Toast Web. Do not write the PIN here.
2. Start the order. On a counter screen, open Quick Order if you see it. Tap the items.
3. Tap Pay. The button may show a dollar sign beside the word.
4. For a card, swipe, insert, or tap it on the reader.
5. The guest may choose a tip. Then they can pick Print, Text, or Email when those choices are on the screen. If they are not, the printer prints the receipt.

*Button names move a little between devices. If a label is not on your screen, stay with the sale, the Pay or Charge button, and the receipt choices.*

## Write this down

- Who owns the Toast Web login.
- Who issues staff PINs.
- The restaurant location name.
- Do not write a PIN or a password on this page.

## Video

How to Take Credit Card Payments on Toast POS

Channel: Toast, Inc.

<https://www.youtube.com/watch?v=Ntu3jw5j-yQ>

Toast's own short video for a card payment, including the guest tip prompt.

*Same steps as the handoff page. No password belongs on this page.*
